

**PACE@Home** follows the nationally recognized health care model known as the Program of All-Inclusive Care for the Elderly (PACE). PACE is unique – a model of managed health care and service delivery designed to benefit community-dwelling older adults who are eligible for nursing home care but who choose to remain in their homes. The **PACE@Home** program employs an interdisciplinary team approach to help meet the changing needs of its clients. Its overall objective is to allow each senior to achieve the highest quality of life possible while living at home. For more information about **PACE@Home**, please contact us at:

## Our Goal

The Program of All-Inclusive Care for the Elderly (PACE) is an initiative supported by both Medicare and state Medicaid programs. It's designed to deliver innovative, individualized treatment while providing health care and social services to qualified participants aged 55 and older.

**PACE@Home** – our local program in the Catawba Valley – opens these services to neighborhood communities, offering comprehensive and holistic care to the seniors we serve. Our goal? To enhance life by nurturing the daily capabilities that allow seniors to remain active in their homes.

**PACE@Home** helps people with long-term care needs enjoy their independence and works with them to obtain all necessary health care services. We pride ourselves on promoting the social, physical, and mental well-being of each individual.

All **PACE@Home** participants benefit from ongoing care, access to an adult day center, and regular monitoring by a team of doctors, nurses, social workers, therapists, personal care workers and other dedicated staff.
